

Week Ending:
Friday 19th October.

Reception class news at Ysgol y Ddraig

Reminders

Reception Show and See-

Thank you to all the Parents and family members that joined us this week for our Show and See. We hope you enjoyed spending time with us in our classroom and helped our learning.

Reception outdoor area-

We are trying hard to create a loose parts construction area for the children in Reception. The children will be able to use loose parts to construct and build. If you have any spare parts or building tools at home you would like to donate we would really appreciate it. Parts such as pallets, wooden logs and planks, guttering, building tools would be fantastic. Thank you!

This week...

In Mathematics, we have been adding objects to find out 'how many altogether'. We also went on a number hunt, when we found the numbers it was our job to add one more/one less.

In literacy we have been exploring initial sounds and identifying what the initial sound is in a word. We have identified the beginning sound in our names, ask us at home to see if we can tell you. This week to support our topic 'What happens when I fall asleep?' we have learnt what a star is, when we see it and how they are created. We made our own space galaxy to help us see and understand how the stars shine through.

Thank for your continued support.
Miss Whelan & the Reception team 😊

Dosbarth Ogwr suggested home learning tasks (Autumn).

Topic- What happens when I fall asleep...?

Here are some suggested home learning tasks that you are welcome to carry out with your children at home. Your child can carry out the tasks at their own pace with family and friends.

Enjoy! ☺

<p>Play games with set 1 sounds (cards will be sent home).</p> <p>Try and identify the sounds and blend your sounds together to make words.</p>	<p>Play a game of I-spy using the sounds learnt that week. Can you recognise the initial sound at the beginning of the word?</p>	<p>Learn and listen to a range of bedtime lullabies. Practise singing the songs and rhymes.</p>	<p>Count objects you see, touch count objects, recite numbers in daily routines.</p>
<p>Can you build a rocket to take a journey to the moon using lots of different materials- cardboard boxes, foil etc. Take a picture and bring it in to class to show your friends.</p>	<p>Draw the objects that help you go to sleep. This might include a special teddy bear, a night light, blanket, bedtime story, pjs. Can you label the items?</p>	<p>Create a star using salt dough and decorate. Hang it above your bed to help sleep.</p>	<p>Read your books at home with family and friends- talk about the pictures and what they show is happening in the story.</p>
<p>Write numbers 1-10 in a range of materials and using a pencil.</p>	<p>Build a den and use torches to create light. Can you create shadows using the torch?</p>	<p>Build up your independence- try putting your coat on and zipping it up, tie your shoelaces, helping to make your food, getting dressed on your own.</p>	<p>Develop your pencil control to help form sounds/ letters in a range of materials and using a pencil.</p>
